

Tinghao-Wang(Barry)

Web3/AI Full-Stack Engineer | Project Manager

Email: wahao888@gmail.com | GitHub: [wahao888](#), [barrywangblockmen](#) | Website: tinghao-wang.github.io | Location: Taipei, Taiwan

Professional Summary

Full-stack engineer specializing in Web3, AI, and data engineering with 2+ years of development experience and 10 years of business operations background. Expert in MVP planning, architecture design, and end-to-end solutions. Proficient in Solidity, Move, Python, FastAPI, Node.js, and Next.js.

Work Experience

Web3/AI Full-Stack Engineer Sep 2024 - Present

[Damen Technology Consulting Ltd. \(Gate.io Taiwan\)](#)

- Built AlphaGroupAgent AI research assistant with multi-source data integration and vector retrieval for automated reports
- Led AlphaDAO team, developed Flashnet grid trading system with Gate.io API, increasing capital utilization 10x+
- Developed DamenKYT Web3 anti-fraud platform with wallet risk assessment and fund tracking

Software Engineer Jan 2024 - Apr 2024

[Multi-Dimensional Space Information Ltd.](#)

- Implemented CI/CD pipelines for .NET/Flask projects, reducing deployment errors by 30%
- Integrated government SSO OAuth/OIDC and conducted OWASP Top 10 security assessments

Founder/CEO Jul 2013 - Feb 2023

[Funky Ltd.](#)

- Founded and operated Funky Chocolate for 9 years, secured NT\$ 5.4M+ in government R&D grants

Education

Bachelor of Science, Agricultural Chemistry Sep 2008 - Jun 2012

[National Taiwan University](#)

Strong foundation in data analysis and experimental design; self-taught programming and system thinking

Technical Skills

Web3 & Blockchain: Solidity, Move, Gate.io API, Lighter API, MetaMask Integration	Backend & Data: FastAPI, Python, Node.js, Express, Supabase/PostgreSQL, MongoDB, SQL, Async Tasks
Frontend: Next.js (App Router), React, TypeScript, Tailwind CSS, Shadcn UI, React Query	AI & Automation: AI Model APIs, Vector Databases, Perplexity API, NLP, OpenCV/TensorFlow
DevOps: GitHub Actions, Docker, AWS EC2/Lightsail, Nginx, PM2, CI/CD, Monitoring	

Key Projects

- AlphaGroupAgent** (2025) - AI research assistant with vector retrieval | [Live](https://agent.damentec.com/) (<https://agent.damentec.com/>)
- Flashnet** (2025) - Grid trading system with Gate.io API, 10x+ capital utilization | [Tutorial](https://agent.damentec.com/flashnet/tutorial) (<https://agent.damentec.com/flashnet/tutorial>)
- DamenKYT** (2024) - Web3 anti-fraud platform with wallet risk assessment | [Live](https://kyt.damentec.com/) (<https://kyt.damentec.com/>)
- Professor-X** (2024) - Video-to-text transcription with Flask, OpenAI API, MongoDB
- PlantGuard** (2024) - CNN plant disease identification, 80%+ accuracy
- Papago** (2023) - AI travel itinerary planner | **Web3 Crowdfunding** (2023) - Solidity, React, Fantom testnet

Certifications

TQC+ Python Big Data Analysis | TQC+ Python, Java/C# OOP | Data Science & Python Training (MOTC)
